

HVAC TECHNICIAN

JOB DESCRIPTION

Job Classification: Full-Time

Work Schedule: Negotiable

Salary: \$25-\$32/hr *based on experience.

Primary Accountabilities:

Team Enoch is looking to fill the position as an HVAC technician in the Austin & surrounding metro area. The primary responsibility for this position is to independently run service calls for all residential HVAC-related requests that are predominantly in the Austin area.

Major Duties:

- Diagnosing and resolving HVAC issues
- Servicing HVAC systems for routine maintenance
- Troubleshooting & installing thermostats
- Replacing capacitors & capacitors
- Replacing TXV, filter drier & compressors
- Replacing control boards
- Performing leak tests & duct inspections
- Partial & full installs as needed
- Install experience is a plus

Required Qualifications:

- HVAC Install: 2 years (Required)
- Residential HVAC: 2 years (Required)
- Driver's License (Required)
- EPA Certification (Required)

Benefits:

- Dental insurance
- Health insurance
- Paid time off
- Vision insurance

Ideal Candidate:

- Dependable - reliably showing up to work on time each day
- Prepared - organized with all the correct technology, equipment, & tools
- Capable - knowledgeable in electrical principles & work in accordance to national & local codes
- Responsible - able to take ownership over work
- Efficient - able to solve problems, think quickly, & fulfill daily commitments on schedule
- Teachable - willingness to learn & accept/give feedback for purposes of growing
- Honest - having a high degree of integrity by not succumbing to lying, cheating, or stealing
- Respectful - considerate of company, coworkers, & customers
